

BRIVO READERS

Brivo Readers are designed to best support the use of secure, encrypted mobile and smart credentials for the Brivo Onair platform.

The Right Readers for a Cloud-Based Security Platform

Brivo Readers provide both an advanced feature set and a modern look. Select from security encrypted Brivo Mobile Pass credentials, encrypted smart card (13.56 MHz), or backward compatible proximity cards (125kHz) to help plan a migration path to secure credentials.

SINGLE GANG

MULLION

KEYPAD

APPLICATIONS & BENEFITS

- Use your Bluetooth-enabled Brivo Reader and Brivo Mobile Pass equipped phone to open doors—even in locations with no wireless connectivity.
- Conveniently issue or revoke mobile credentials via Brivo Onair in moments.
- Improve security with encrypted smart cards that offer protection against counterfeiting.
- Select from an array of reader options that provide increased flexibility and long-term financial value.
