

## FD-MB30

Single Reflector Adaptor for use with FD-MB20

### General

---

The FD-MB30 is used in conjunction with the FD-MB20 to mount a reflective prism at an off perpendicular axis. It allows for easy adjustment to ensure that the required angle between 0° and 45° can be achieved. It can be mounted vertically or horizontally.

### Standard Features

---

- Easy adjustable
- 0° to 45° range
