

CODE: **PSD14** v1.0/I
 TYPE: 230VAC 3x0.5mm² cable, 1.5m, CEE 7/7 (EF), IEC C13

APPLICATION

The 3-core PSD14 network cable is designed for connecting devices with the power network. From the power network side, the cable is finished with the E/F ("Uni-Schuko") angled plug, while from the receiver side the cable ends with the C13 straight plug (female).

TECHNICAL DATA :

Operating voltage:	230VAC
Cable cross-section:	3 x 0.5mm ²
Maximum current:	6A
Cable length:	1.5m
Plug type - grid:	the E/F („Unischuko“) angled plug
Plug type - receiver:	the C13 straight plug (female)
