Overview

The TruVision TVP-5105 IR PTZ provides a robust and reliable solution to various installation conditions. Its super low light performance provides high quality color images in challenging conditions while its smart IR functionality ensures optimal use of IR illumination when in black & white mode. The camera's 2 megapixel resolution combined with excellent low light capabilities ensures you capture the required level of detail at all times.

The camera is fully programmable, with up to 300 presets along with 8 patrol tours (32 presets per tour).

A 24-zone privacy mask feature allows the camera to block out sensitive areas. In addition, the variety of intelligence features adds substantial value and enhanced performance to any video system.

The PTZ provides compatibility with previous UTC mounting brackets as well as recording systems to ensure backward compatibility for easy service and installation.

Technology

The camera features H.265 compression to optimise its bandwidth and storage requirements. At the same time, H.264 support ensures the camera can easily be connected to legacy installations where needed. ONVIF, PSIA and CGI command sets ensure that this camera can also be easily connected to virtually any video surveillance system.
