

Logitech QuickCam[®] Orbit AF

The Logitech QuickCam Orbit AF USB Webcam is a compact web camera that connects to your computer via a standard USB 2.0 interface. The camera allows you to participate in web conferencing, record video to your computer and take still images. An integrated microphone allows you also to capture audio. The camera features a true 2 megapixel CCD that allows you to take high-resolution still images.

The Orbit AF offers many ergonomic features that will make your life easier. Motorized pan and tilt functions allow you to place the camera in a convenient location to facilitate eye contact when conferencing. The camera also features a dual-height stand that allows you to elevate it to a 9" height.

The webcam has many advanced features such as RightLight 2 technology, RightSound technology, video effects and automatic face-tracking. These features and more make this webcam an excellent choice for your webconferencing and chat needs.

Features

- ◇ Motorized tracking: Automatically follows your every move, keeping you right in the middle of the picture
- ◇ Carl Zeiss optics: Get more detail and clarity from Logitech's glass lens designed in collaboration with Carl Zeiss, the global leader in camera optics
- ◇ Premium autofocus: Your images stay razor sharp, even in closeups
- ◇ HD video: Video and images have never looked so real (720p)
- ◇ Higher-megapixel performance: A true 2-megapixel sensor, with up to 8-megapixel photos (enhanced)
- ◇ RightLight 2 Technology: Adjusts intelligently to produce the best possible images in dim or poorly backlit settings
- ◇ Integrated microphone with RightSound Technology: Enjoy crystal clear conversations, free from annoying background noise
- ◇ 9-inch stand: Brings the webcam up to eye level
- ◇ Works with your favorite IM application: Use QuickCam Orbit AF with Skype, Windows Live Messenger, Yahoo! Messenger, AOL Instant Messenger (AIM) and other popular instant messaging applications
